Music Bingo

Use this page to cut out each symbol. To play, first give each player (except the caller) a different Bingo board and a pile of dried beans, pennies, or other game board markers. The caller draws the symbols from a cup or bowl one at a time and tells or shows the players what they drew. Players mark the selected symbols with their beans or pennies. When a player has five symbols marked in a row, they call out "Bingo!" and win! Alternatively, the boards can be laminated to mark with dry-erase markers instead of beans.
