

Alphabet Towers Game Instructions

Preparation:

Cut out letter cards. For longer term use, print on cardstock and/or laminate.

Level 1:

Shuffle the cards, then build a tower in the order of the musical alphabet, beginning with 'A' on bottom.

Level 2:

Build a tower in the order of the musical alphabet, beginning on ANY letter (after 'G' it starts over with 'A').

Level 3:

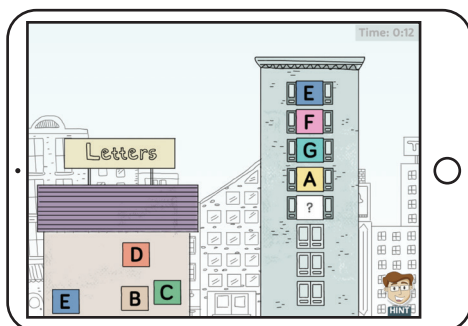

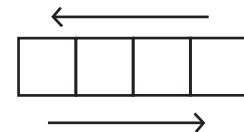

Begin by placing 'G' at the top, then arrange in reverse order, building down, placing 'A' at the bottom.

Level 4:

Begin with ANY letter at the top of the tower, then build down, going backward through the alphabet.

Variation:

Instead of building the alphabet in an up-down direction, try building it from left to right (to match the left-right arrangement of piano keys).
